Safia is clever and active.

Every day, her triangle shapped clock

wakes her up.

She washes her face.

And combs her hair in front of her **oval** mirror.

Safia carries her **round** bag and gose to school.

Safia used to sit sadly in her rectangle shapped classroom because she has had no friends.

one day, Safia found a golden watch in her school.

she gave the watch to the teacher to look for it’s owner.

All the students clapped for her in the square playground.

The teacher gave Safia the prize of the ideal girl.

since then, Safia has had a lot of friends. They all like her for her honesty.
